Catch Our Wave® to Sustainability

Sea Port is committed to sustainability, as defined by the **United Nations' Brundtland Commission** (link: www.un.org/en/globalissues/environment). It is the ability to "meet present needs without compromising the ability of future generations to meet their needs." We believe seafood to be the best protein source for our health and for our environment; therefore we foresee future generations demanding a greater supply of seafood as both their population and economic prosperity grows. Sea Port will be dedicated to sustainably meeting this demand.
